

Top 10 Considerations When Choosing an iPaaS Partner

- 1** How well do they simplify complex integrations?
- 2** Data is growing exponentially. Can they scale?
- 3** Do they have a flexible and transparent pricing structure?
- 4** Do they offer partner-specific account hierarchy?
- 5** What deployment environments are supported?
- 6** Is their platform future-proof?
- 7** How robust is their error handling and monitoring?
- 8** Do they have a composable platform and reusable components?
- 9** How will they support you – and your customer?
- 10** What about AI?

Choose wisely – with a little help from Boomi.
